TAKING NEW PATHS

There's good reason why the rangers are the flagships of the National Park – after all, they know “their” valley like the backs of their hands. Beginning July 2017, you have the opportunity to meet face-to-face with National Park Rangers in the valleys of the National Park itself, from Krimml to Muhr!

- › 09 July to 10 September 2017
- › Sunday to Friday

As different as each of the National Park valleys is, they all have something in common: They are always rewarding places to visit!

INFORMATION HUTS AT THE VALLEY ENTRANCES:

In the summer months – from the beginning of July until mid-September – the information huts at the entrances to the valleys of the National Park are staffed. National Park Rangers there are available to provide visitors with all the assistance they might need.

They have tips for all kinds of highlights in Austria's biggest national park, know everything about hikes in the area, and can provide you with the latest maps. These info huts are open Sunday through Friday and are located at the entrance to each valley.

In the 2017 flyer, you can learn more about the special features of each National Park valley, along with exhibitions, theme paths and environmental educational programs offered inside Hohe Tauern National Park Salzburg!
